

ADAPTIVE RELEASE – HOW TO SET

Attach Adaptive Release to an Assignment

1. Navigate to the **Assignments** section and choose an assignment.

2. Hover over the name of your assignment, click the down arrow, and choose **Adaptive Release**.

The criteria inside the basic adaptive release are:

Date

DATE

Setting a Date criterion for this item will restrict the dates and times of the visibility of this item.

Choose Date

Display After

Enter dates as mm/dd/yyyy. Time may be entered in any increment.

Display Until

Enter dates as mm/dd/yyyy. Time may be entered in any increment.

Membership

MEMBERSHIP

This content item is visible to all users until a Membership criterion is created. Users must be specified in the Username list or must be in a selected Group.

Username

Enter one or more Username values or click **Browse** to Search. Separate multiple Username values with commas.

Set A Grade Rule

We are going to add a rule that says students must have completed Assignment #1 before they can do Assignment #2.

1. Choose assignment #1, because this is what it's dependent on.

4. Once you have set all your criteria, click **Submit**.

Assignment #2 now shows that adaptive release has been enabled.

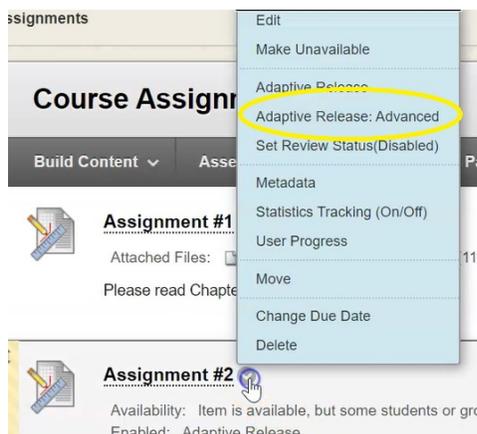

Now when a student goes into your course and has a look in the assignment section, they will see assignment #1, and once assignment #1 is completed and they have received a mark of 60% or greater, automatically, assignment #2 will show for them.

Inside this basic adaptive release feature you can set any of the other criteria along with the grade criteria. If you chose to set a date criteria, a membership criteria, and review status criteria, the student would have to satisfy all four criteria before they'd be able to access the assignment.

Set Adaptive Release: Advanced

This feature is used when you want to set more than one rule where it's indicated that the student must complete any **ONE** of those rules in order to be able to see the assignment. Advanced is the same as your basic adaptive release feature, however here you have the option to create each rule individually and attach that rule to this assignment.

1. Click the drop arrow on your assignment, and select **Adaptive Release: Advanced**

You can see in this example that the assignment already has rule number one, which was created when we went into the adaptive release basic features and assigned the grade criteria.

3. Click on **Create Rule**

Adaptive Release: Advanced

A rule is a set of criteria that determines the visibility of this content item to users. If multiple rules are created, the content will be visible to the user if any of the rules are met. For content to be released to a user, that user must satisfy all criteria in one of the rules below. To create more restrictions that a user must satisfy, add criteria to one rule. To create more potential ways for a user to see the content, create multiple rules. Add, edit, or delete criteria in any rule by selecting **Edit** in the rule's contextual menu.

Now we see that this assignment #2 has two rules attached:

Rule number one says that it must have a grade of at least equal to or greater than 60% on assignment #1 and rule 2 says you must be part of this membership of one of these three users

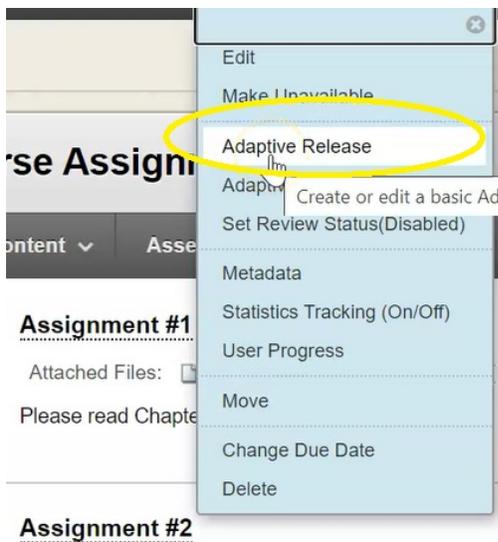

If either of these rules are found to be true then the student would be able to see this item.

Remove Rules or the Adaptive Release Altogether from an Assignment

1. Click the down arrow

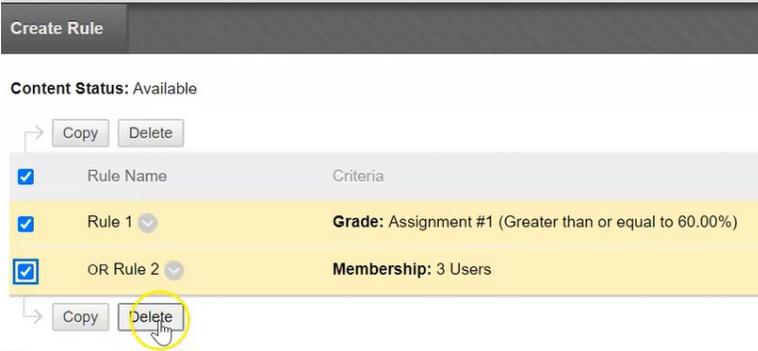

2. Return to **Adaptive Release**

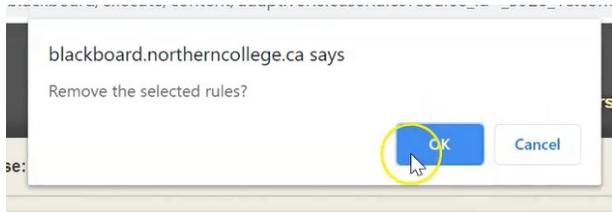

3. Select any of the rules that you no longer want to apply, and click **Delete**
