

D – Executive Limitations

Language Services Policy

Background

The Board of Governors French Language Services Policy (1995) was written to serve a bilingual institution. Regulation 771 designates Northern College of Applied Arts and Technology as a unilingual institution and a modified Language Services Policy is required to ensure that the College continues to provide services to the designated bilingual districts of Cochrane and Timiskaming.

The Board of Governors of Northern College of Applied Arts and Technology and the Conseil d'administration (*Board*) of a Francophone College may enter into an agreement that programs may, in whole or in part, be offered or delivered in either English or French or in both English and French.

Policy

The President shall not fail to ensure that where stipulated in an agreement with an agency, general services are provided to designated bilingual districts of Cochrane and Timiskaming in the two official languages.

These general services may comprise verbal and written services for:

- the promotion of the College and its programs;
- the recruitment and retention of students;
- the provision of Community, Business Development, and Employment Services, when such are not government-funded;
- the provision of Employment Ontario programs.
