

---

Hello from Canada!

If you do not have your visa yet and you don't get it before September 7, maybe you can begin to study soon from your home country!

**[Fill out this form if you want to start to study at home.](#)**

Not all programs are offered online or have space, so let us know more about you and your program.

If you get your visa by September 7, you must still come to your campus in Canada for the September (Fall) 2022 semester and any future studies, including if you have already been studying here in January or May of this year.

Look forward to studying with you soon!

Please reach out if you have a question.

**Have a wonderful day,**

The International Department
