

SUBJECT	Assessment and Evaluation of Student Learning
	Assessment and Evaluation of Student Learning #A-26

PROCEDURES

This procedure (and related policy) has two objectives: the “academic-operational” focus on procedural fairness and grades, and the “academic pedagogical” directions of guiding the process of gathering information about student learning in order to improve the teaching and learning activities and engage the student in self-assessment.

I. Student Assessment and Evaluation

1. Students will have their work and learning graded or assessed in a fair, objective, and transparent manner.
2. Students will be kept informed of their progress during the semester with a current record of evaluation results and, if feasible and reasonable, a statement or measure of their standing in the course (e.g., current average.)
3. Results of all assignments and tests will be communicated to the students in a timely fashion.
4. Tests will be reviewed with the students; however, the test may or may not be returned to the student. The results of the final exam may be reviewed upon request.
5. At the beginning of each course, the faculty member will stipulate clearly and in writing, in course outlines, course outline addendums, placement or practicum manuals, program policies and procedures documents, etc. the criteria to be used in assessing the students' work for the course. Students normally will be evaluated through a variety of methods, such as tests, assignments, participation, clinical observation, etc., as determined by the faculty and described in the course outline. The course outline will describe the evaluation components, structure, and weights.
6. No single evaluation may have a weight of more than 40% in the calculation of the final grade.
 - a) Notwithstanding the above statement, in those cases in which the majority of the course is delivered at a distance or online, up to 50% of the final grade may be determined in a single proctored evaluation.

	<p>b) In exceptional circumstances, such as a capstone project or a field or clinical placement, where it may be necessary to exceed the maximum, the relevant Dean may grant permission for the maximum to be exceeded.</p> <p>7. In determining final standing in any course, the assessment of the work of the entire academic semester or level is taken into consideration: exams, tests, essays, reports, placement, etc.</p> <p>8. The College may establish one or more course requirements - deemed to be essential to the delivery of the course or the realization of the course outcomes - that must be met to successfully complete the course. Such requirements must be consistent with course learning outcomes and not be unreasonably applied. The teacher may assign a failing grade where a student has achieved a passing final average mark or grade but has not successfully fulfilled all requirements for passing the course as stipulated in the course outline.</p> <p>9. Students may not be evaluated or graded on the basis of attendance (i.e., marks cannot be awarded or withheld on the basis of attendance). Students may be evaluated (i.e., marks awarded), for participation, skills demonstration, etc. Such evaluations must be undertaken in a demonstrably objective manner (e.g., use of an evaluation rubric.) Failure to attend the class or lab is likely to affect adversely the student's performance, and hence marks, in these components of the course evaluation.</p> <p>10. Notwithstanding the above statement (9), there may be, in some courses or programs, a course-success or program-graduation requirement for the completion of a minimum number of hours or days in a classroom, clinical, or co-op setting to meet professional, licensing, or occupational requirements. In apprenticeship programs, attendance may be established. Failure to meet time requirements may result in a reduced or failing grade or failure to graduate.</p> <p>11. Where a course or program demands special attendance regulations such as labs, clinical practice, practicum, fieldwork placement, etc. the attendance details will be specified in writing and provided to all students at the beginning of the program or course. In the case of sponsored students, attendance details and reporting of progress will be relayed by the sponsoring agency directly to the student and to the College where applicable. Students in the Academic Upgrading or other preparatory programs should refer to the attendance requirements outlined in their program handbook.</p>

<p>12. To use a sports analogy, formative assessment is akin to a sport practice, whereas the summative assessment would be the actual game. The summative assessments will comprise the greatest portion of the final course grade.</p> <p>II. <u>Grading, Promotion and Requirements to Graduate</u></p> <p>1. Grading System</p> <p>Refer to the Assessment and Evaluation of Student Learning Policy A-26 for complete list of grades, grading values and definitions.</p> <p>* A Compassionate (Aegrotat) grade [displayed on transcript as ‘NG’] may be offered when a student whose performance over the majority of the course is fully satisfactory but is prevented from writing one or more final examinations for reasons beyond his/her control.</p> <p>If a student is in this category, the following should occur:</p> <ol style="list-style-type: none"> 1. The student informs the appropriate faculty member or coordinator as soon as possible. 2. For each course involved, the professor consults with the Vice President / Dean to determine if a compassionate grade will be offered. <p>The student has the right to deny the compassionate grade and complete the course requirements at a time mutually agreed upon with the professor.</p> <p>2. Promotion meetings are held at the end of each semester.</p> <p>To move from one academic achievement level (AAL/semester) to another, the minimum grade point average (GPA) of 1.7 (for most programs) must be attained.</p> <p>Students who attain a GPA of less than 1.7 must meet with their Program Coordinator to discuss continuation in the program. The Program Coordinator makes a decision in consultation with other program faculty and the Dean. The decision will be communicated via email to the student, and a copy placed in the student file at the Registrar’s Office.</p> <p>A full-time student who achieves a term GPA of less than 1.70 in three terms, in one or multiple programs, over any three calendar years (nine consecutive semesters) will be dismissed from the College by the Registrar for 12 months. A</p>

<p>student seeking re-admission to a college program after dismissal must re-apply for admission to the College.</p> <p>Northern College policies generally over-ride Departmental policies, but there may be circumstances where Departmental policies reflect a specific accreditation or external partnership requirement. Students should consult departmental policies and manuals to determine the minimum GPA requirements for their program, course passing rates and eligibility for supplemental assessments.</p> <p>Students in College and Career Preparatory Studies should refer to the Program Policies and Procedures Handbook to determine the GPA and time limits required to move from one level to the next.</p> <p>With Distinction: Students who maintain an average GPA of 3.5 (or 87.50%) in their last 2 semesters of study, while studying on a full-time basis, will have a notation of "With Distinction" on their transcript.</p> <p>3. Statement of Academic Achievement – Transcript</p> <p>The College record of a student's academic achievement is maintained by the Registrar's Office.</p> <p>At the end of each semester, or course, or level, students will be provided a transcript. This transcript records the standing achieved in each course, the term Grade Point Average (GPA), and the program Grade-Point Average (GPA).</p> <p>On the basis of this standing the students are advised whether they may proceed.</p> <p>III. <u>Testing, Examination and Supplementals</u></p> <p>1. Testing</p> <ol style="list-style-type: none"> It is the professor's right to give scheduled tests. The professor will inform the class of any test at least one week in advance of the test date. It is the student's responsibility to attend class and be informed of scheduled test dates. All tests, whether scheduled or unscheduled, will be weighted as established in the course outline, mapped to the learning outcomes

<p>3. Supplementals may be granted</p> <p>A student who does not meet the minimum requirements of a course but has a term mark of “C” (60-69%) or better in that course prior to any other form of final evaluation and who does not succeed in the course as a result of the final evaluation may be eligible for a supplemental. The decision will be based on the student’s performance in class during the term, and attendance, where attendance is critical component in a course (i.e., labs, practicums, etc.).</p> <p>The maximum final grade attainable in this case is 60% (C). If the student does not successfully complete the supplemental, the grade prior to the supplemental will stand and the student may be required to retake the course.</p> <p>The following programs are regulated through provincial examinations and require a passing grad of “B” (70-79%)</p> <ul style="list-style-type: none"> • Primary Care Paramedic • Fire to Paramedic Bridging • Pre-Service Firefighter Training & Education <p>A student enrolled in one of these programs who does not meet the minimum requirements of a course but has a term mark of “B” (70-79%) or better in that course prior to any final evaluation and who does not succeed in the course as a result of the final evaluation may be eligible for a supplemental. The decision will be made based on the student’s performance in class during the term and attendance, where applicable.</p> <p>The maximum final grade attainable in this case is 70% (B). If the student does not successfully complete the supplemental, the grade prior to the supplemental will Stand and the student may be required to retake the course.</p> <p>In any semester, no more than two (2) supplementals may be completed.</p> <ul style="list-style-type: none"> • A supplemental fee must be paid at Student Services and the receipt must be provided to the professor prior to being allowed the supplemental. <p>Please refer to the Ancillary Fees Schedule posted at the Student Services Office or www.northernnc.on.ca/noncompulsory-ancillaryfees for current fees.</p>

	<ul style="list-style-type: none"> • The student will confirm his/her intention to proceed with the supplemental five (5) days prior to the date of the supplemental. • The supplemental must be undertaken, evaluated, and processed by the date stipulated in the Academic calendar for adding courses prior to graduation if the course is a requirement for graduation. • If a student fails a supplemental, he/she may not challenge the course through Challenge by Examination until one (1) full academic semester has passed. <p>4. Special Circumstances for Supplementals</p> <p>A supplemental, specifically additional time may also be granted to students who for reasons beyond their control (e.g., death in a family, illness, and other emergencies) are unable to complete the course within the allotted timeframe.</p> <ul style="list-style-type: none"> • There is no limit to the number of supplementals in this case. • There is no fee in this case. • Additional time granted to finish a course must be completed by the late registration deadline of the next scheduled academic term of the student's program. Failure to do so will result in a grade of "Zero" (Fail) in the course. <p>IV Repeated Courses</p> <ol style="list-style-type: none"> To repeat a course, the student must register in the course and may pay a fee at Student Services. The student is to be advised that timetable conflicts may occur for repeated courses All Grades are recorded on the student's transcript. If a course is repeated to replace a failed or lower grade, the higher grade will always be used to compute averages or to determine standing. The failed and/or lower grade, however, remains on the transcript. A student repeating a failed course is bound by any new revision to course content or hours made to that course.
