- Clinical partner agencies may choose to create their own policies regarding mandatory student immunization against COVID-19 as a protective measure for residents and patients. Northern College is required to adhere to these policies as a requirement for staff and students attending clinical.
- **All Personal Support Worker students are now required to submit documentation for having received 3 COVID-19 vaccinations prior to clinical attendance in long term care in the second semester of the program.** The health care agencies have confirmed their policies stating that all students are required to be immunized for COVID-19 in order to care for residents and patients. **Students who do not meet this requirement will not be permitted to attend clinical hours and will not meet the expectations for the practical component of the program course, which will result in course failure.** There will be no exceptions for this requirement.
