CREATING COLUMNS IN GRADE CENTER

You're going to learn how to create columns manually within the grade center.

As indicated in previous video, numerical columns are created automatically, anytime that you create a graded activity within your course, but we can also create columns manually.

R O Grade Center										<u>ک</u> ا	Edit Mode is:
11 C ₽ Introduction to Blackboard	Grade Cer The Full Grade Ce	nter : Full G	rade Cer	iter O in the Grade Cen	ter and is the defau	lt view of the Gra	de Center. Mor	e Help

You can create a regular column designed to allow you to input a student's grade for an assignment, or you can create a calculated column which could be an Average Column, Minimum/Maximum Column, Total Column, or a Weighted Column.

Create A Regular Column

For the first example, create a regular column.

1. Click on Create Column.

2. Call this "Hand in Assignment"

															_							
- 0	olur	nn N	ame				H	land In	Assig	nmer	1											
rad	le Ci	enter	Nar	me			Ē															
rau		enter	INCI	ne																		
esc	ripti	on																				
_	77	Т	Ŧ	Para	agrap	h v	Ari	ial	~	3	(12p	t)	~	:=	*	E .	1	- 1	ø	- 4	2	
r	1	-																				
r ×	1 D	Ê	Q	10	-	= =	= 3	= =	<u>*=</u>		Tx	T.	0	25	P-91	914	-	-		185	-	
T	1	-				_	-	_			Y									1000		

3. For the Primary Display, you want it to be a **score** and the secondary display is going to be **percentage**.

Primary Display	Score Grades must be ente	✓ ered using the selecter	d format. Grades display in this format in	both the Grade Center and My Grades.
Secondary Display	None None Complete/Incomplete	vown in the Grad	e Center only.	
Category	Letter			
* Points Possible				
Associated Rubrics	Add Rubric 😽			
	Name	Туре	Date Last Edited	Show Rubric to Students

4. For this particular column that you're creating, because you've given the students an assignment that they've handed in on paper, that assignment that you gave them is worth 30 marks.

Category	No Category 🗸	
* Points Possible	I I I I I I I I I I I I I I I I I I I	
Associated Rubrics	Add Rubric ¥	
	Name	Ту

5. If you wanted, you could include a due date.

DATES	
Date Created	Jun 26, 2020
Due Date	dates as mm/dd/yyyy. Time may be entered in any increment.

6. Leave the rest of the settings as default.

OBTIONS	
OFTIONS	
Select No for the first option to a column statistics to students in 1	xxclude this Grade Center column from calculations. Select No for the second option to hide this column from students in My Grades. Select Yes for the third option to show My Grades.
Include this column in Grade Center calculations	● Yes ○ No
Show this column to students	● Yes 🔿 No
Show Statistics (average and median) for this column to Students in My Grades	⊖ Yes ⊚ No

7. Hit Submit.

8. The column that you just created goes to the end of your grade center.

Grade Cen The Full Grade Cer	ter : Full G	Frade Cen	ter 💿 in the Grade Center	and is the default	view of the Grade	Center. <u>More Hel</u>	P				
Create Column	Create Calculat	ed Column 🗸	Manage 🗸 🛛 F	Reports 🗸						Filter	Work Offline 🗸

Selected Rows: 0											
ightarrow Move To Top	Email 💝									Edit	Icon Legend

9. This column is now ready for you to input the students grades for the assignment. To do this, you just click on the two dashes and type in the mark that the student received and hit enter.

10. It automatically displays the score, as was requested for primary display and then the percentage for that assignment.

Creating a Calculated Column

Another type of column that you can create is a Calculated Column. Calculated column combines data from multiple columns to attain performance results.

1. In this example, we're going to create a total weighted column by clicking on **Create Calculated Column**, and then clicking on **Weighted Column**.

Create Column	Create Calculated Column ✓	Manage
Move To Top	Average Column Minimum/Maximum Column Total Column	Distant
Last Name	Weighted Column	As
Student	Kolly studentkolly	42.00(8

This can be useful when trying to figure out your students final grades as typically assignments are worth a certain percentage, tests are worth a certain percentage, and participation may be worth a certain amount. So, we're going to create one weighted column that's going to take into consideration all of those types of activities and give the student a final grade.

2. You call this column "Final Grade".

* Column Nam	e	F	inal Grade								
Grade Center Na	ame	J.C									
		Di	splays as ti	ne column h	eader ir	the C	Frade (enter.	Recom	mended	not to exce

3. In this case, you can leave the primary display as a percentage.

Path: p	
Primary Display	Percentage Calculated grades Wisplay in this format in both the Grade Center and My Grades.
Secondary Display	None This display option is shown in the Grade Center only.

4. When you scroll down, you'll see the difference with creating a calculated column.

in Weighted Grade	er me wegne per renaujeo.
Columns to Select: Total Variable Question Test Assignment #1 Test #1 - How To: Requires Respondus LockDon Test Generator Example Test LDB Test. Requires Respondus LockDown Brow question pool test Column Information Categories to Select: Assignment Survey Test Discussion Bion	Selected Columns: Enter the weight percentage for each item. Percentages should add up to 100 percent.
Journal Self and Peer Category Information	

This isn't a column that you're going to manually input information into, this is a column that you want Blackboard to take information from existing columns within this course.

5. On the left hand side, you will see a list of all of the columns that are already created in your grade center.

Columns to Select:	
Total	A
Variable Question Test	
Assignment #1	
Test # 1 - How To- Requires Respondus LockDov	6
Test Generator Example Test	
LDB Test- Requires Respondus LockDown Brow	
question pool test	T
Column Information	

6. In order to include them in the weighted total column, you simply highlight them and click this over arrow to move them over to the right hand side.

7.You can do this with every column that you want to include for the students final grade.

SELECT COLUMNS

Select the columns and categories to include in this weighted grade and then set the weight percentages.

Columns to Select:	Selected Columns:	
Total	Enter the weight percentage for each item. Percentages should add up to 100 percent.	
Assignment #1		
Final Grade	> \star Scolumn: Variable Question Test	
· · · · · · · · · · · · · · · · · · ·	*% Column: Test # 1 - How To- Requires Respondus LockDown Browser	
(Column Information		
	K Calument DD Test Desuises Respondus LaskDown Resulters	
Categories to Select:	* Column: LDB Test- Requires Respondus LockDown Browser	
Categories to Select: Assignment	* Column: LDB Test- Requires Respondus LockDown Browser	
Categories to Select: Assignment	Column: LDB Test- Requires Respondus LockDown Browser Column: question pool test	
Categories to Select: Assignment Survey Test	Column: LDB Test- Requires Respondus LockDown Browser Column: question pool test	
Categories to Select: Assignment Survey Test Discussion Blog	Column: LDB Test- Requires Respondus LockDown Browser Scolumn: question pool test	
Categories to Select: Assignment Survey Test Discussion Blog Journal		
Categories to Select: Assignment Survey Test Discussion Blog Journal Self and Peer	 Column: LDB Test- Requires Respondus LockDown Browser Column: question pool test Column: Participation 	
Categories to Select: Assignment Survey Test Discussion Blog Journal Self and Peer Category Information	 Column: LDB Test- Requires Respondus LockDown Browser Column: question pool test Column: Participation 	

8. Once you've moved over all of the columns that you want to use in the student's final grade, you need to go and assign a percent value to those columns so that the total weight equals 100%. You're simply entering in a percent value for each column.

9. You need to ensure that it totals to 100%

2	% Column: Variable Question Test	٥
20	% Column: Test # 1 - How To- Requires Respondus LockDown Browser	0
15	% Column: LDB Test- Requires Respondus LockDown Browser	0
10	% Column: question pool test	٥
20	% Column: Participation	0
33	% Column: Hand In Assignment	0

10. The option underneath this section is to calculate these grades as a Running Total.

0 1 1 1 D 1 T 1 1	
Calculate as Running Total	Yes O No

A Running Total means Blackboard will combine the information from these columns that you have indicated, however it exempts any cells that does not have data. If you select no to calculate as a running total then it will automatically assign a value of 0 to any cells that don't have data in it.

11. In this example we are going to leave the other options as default.

12. Click Submit.

I DB Test- Pege guestion pool t	Participation	Einal Grade	Last Save	d:June 26, 2020 9:44 AN
6.00(54.54545%) 0.00	85.00%	60.85227%	28.00(93.33333%)	73.18181%
•	90.00%	90.00%	21.00(70.00%)	70.8058%

13. Go to the end of your grade center and here's your final grade for your students.

14. As indicated in a previous document, by default Blackboard creates a Weighted Total column as part of the standard course creation.

124.42 Weighted Total (*) 42.00(84.00%)	76.00%(12.92)
37.00 30.00(60.00%)	52.94117%(9.00)

15. Instead of creating a new column, if you simply wish to edit this one you can click the down arrow beside the title and click **Edit Column Information**.

Weighted	Tetal 🙀 Variable Questi	Column Statistics Set as External Grade Hide from students (on/off)
	10.00(100.00%)	Sort Ascending Sort Descending
		Hide from Instructor View Delete Column

16. From here, you can then change the column name...

Edit Weighted Co	lumn			
* Indicates a required field.				
* Column Name	[/Veighted Total	C	OLUMN INFORMATION	
Grade Center Name	Displays as the column header in the Grade Center. Reco		* Column Name Grade Center Name	Final Grade
TTTTFParagraph	∨ Arial ∨ 3 (12pt) ∨ Ξ * Ξ T T T T T T T <th< th=""> <th< th=""> <th<< th=""><th></th><th>Description</th><th>Displays as the column header in the</th></th<<></th<></th<>		Description	Displays as the column header in the

...and then go through and do the exact same process that you just did in creating a new column, and click **Submit**.

clude in Weighted Grade
