

Pair Your Blackboard Ultra Course using LTI Advantage in the New Connect Experience

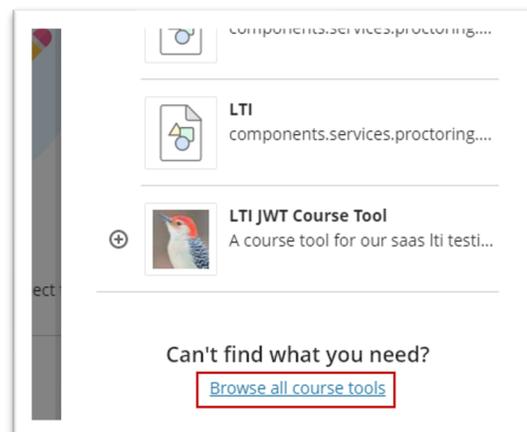

Before you begin, please have your existing Connect® section ready. If you need assistance getting your Connect® section prepared, refer to [these Instructor resources](#) on Support at Every Step.

Pair with Existing Connect Account and Existing Section

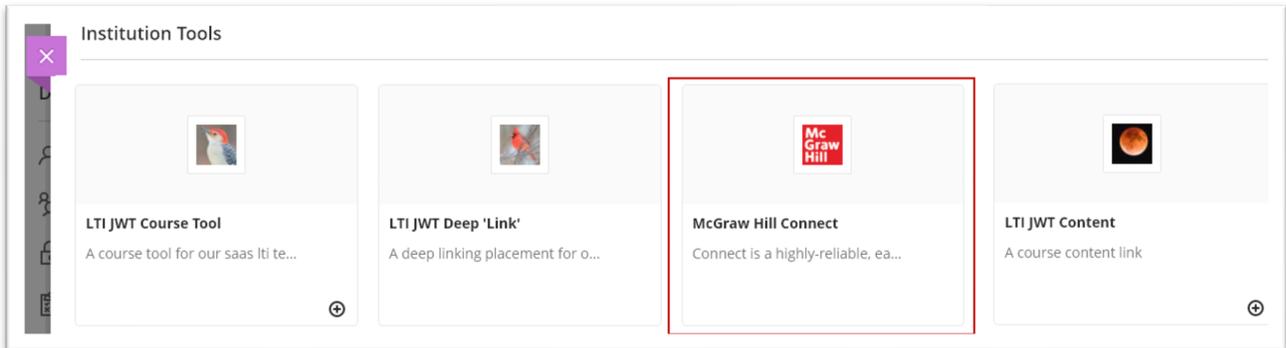

1. Log into Blackboard and navigate to your course.
2. Click on **Books & Tools** in the left navigation.

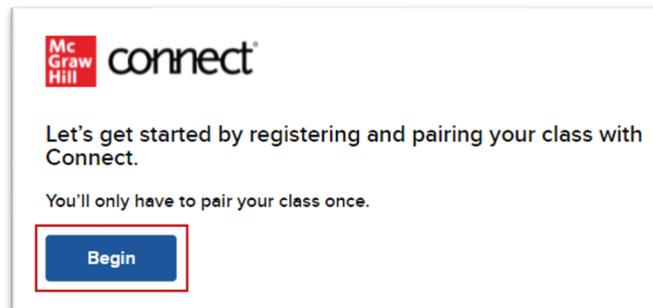

3. Scroll to the bottom of the right peek panel and click **Browse all course tools**.

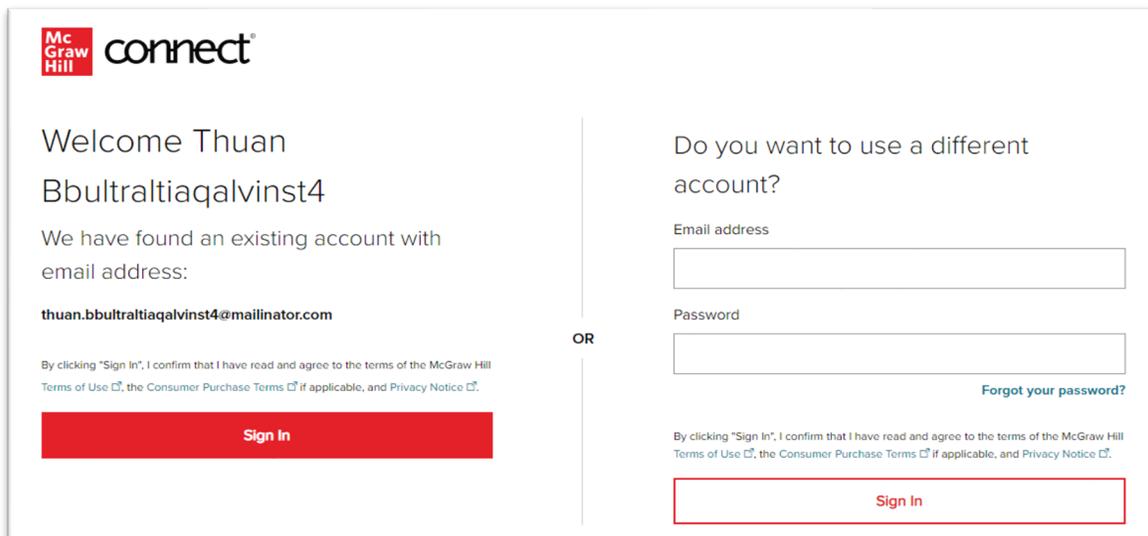

4. Locate **McGraw Hill Connect LTIA** under Institution Tools and click on it. Note: Your institution may have named the tool differently.

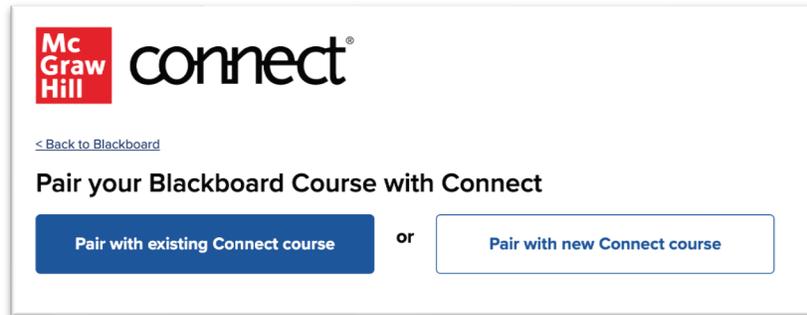

5. Click **Begin**.

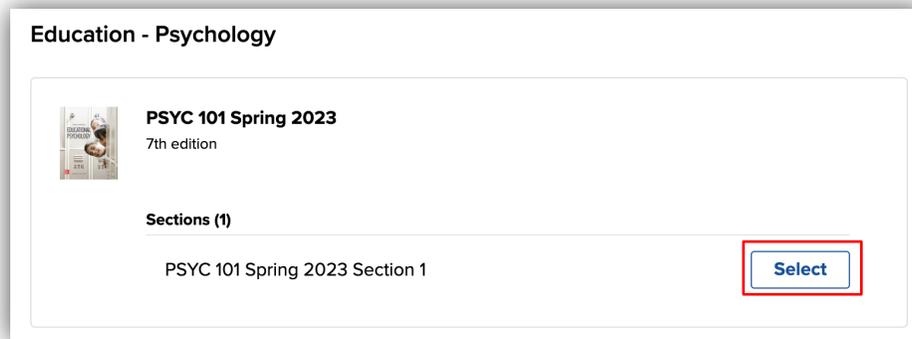

6. If you see this message, "Connect found an existing account with your email address," Click **Sign In** on the left-hand side. NOTE: This will not appear if you are still signed in from a prior term.

- Click **Pair with existing Connect course**.

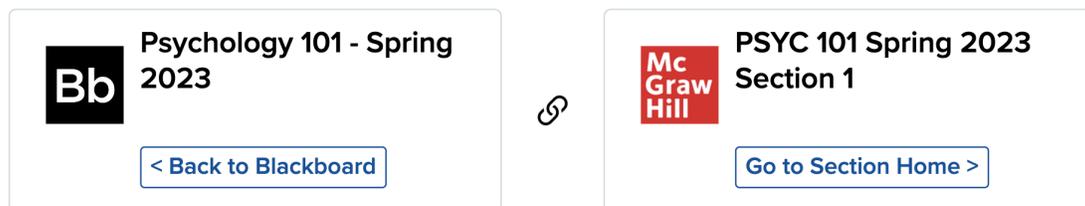

- Locate the Connect section you want to pair and click **Select**.

- Do **not** leave or refresh this page! Your current Connect assignment links are being automatically relinked. NOTE: This process can take a while depending on how many Connect assignment links have been deployed in your LMS.

If you have additional Connect assignment links to deploy, continue to the section below. If not, your process is complete, and you can head Back to Blackboard.

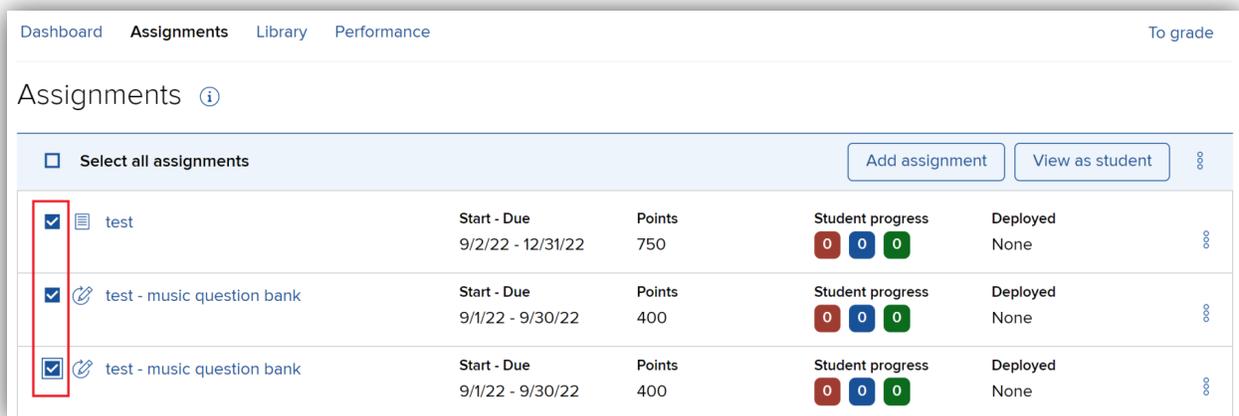

NOTE: The following steps require the New Connect Experience to be enabled. If you have not yet enabled the New Experience, you will need to toggle it on in your Connect section.

1. Click on **Go to Section Home**.
2. Click on the **Assignments** tab.

3. Select the assignment(s) you want to send over to Blackboard.

4. Click the **three dots** icon and select **Deploy to Blackboard**.

The screenshot shows the 'Assignments' page in Blackboard. At the top, there are navigation tabs: 'Dashboard', 'Assignments', 'Library', and 'Performance'. On the right, there is a 'To grade' link. Below the navigation is the 'Assignments' header with an information icon. A table lists assignments with columns for 'Select all assignments', 'Add assignment', 'View as student', and a 'three dots' menu icon. The table contains three rows of assignments: 'test' (9/2/22 - 12/31/22, 750 points), 'test - music question bank' (9/1/22 - 9/30/22, 400 points), and another 'test - music question bank' (9/1/22 - 9/30/22, 400 points). The 'three dots' menu is open, showing options: 'Deploy to Blackboard', 'Send to colleague', 'Create folder', 'Manage dates', 'Show', and 'Hide'. The 'Deploy to Blackboard' option is highlighted with a red box.

5. Verify the Grade Type and click **Deploy**.

The screenshot shows the 'Deploy and Manage' dialog box. The title is 'Deploy and Manage'. Below the title is a description: 'Deploy assignments to Blackboard where students can access them directly. You can return to this page to manage assignments that were previously deployed.' There is a link for 'selected assignments'. Under 'Set your options', there is a 'manage:' section with 'in bulk' and 'individually' buttons. Below that is a 'Grade Type' section with 'Best' (selected) and 'Last' radio buttons. At the bottom, there are 'cancel' and 'Deploy' buttons. The 'Deploy' button is highlighted with a red box.

6. The assignments should now be in the Blackboard Course Content area and a grading column has also been created for each assignment in the course. All assignments will have the same icon in your Blackboard course.
