The Chair called for disclosures of actual, potential, or perceived conflict of interest. None were expressed.

4. COMMENTS/PRESENTATIONS

President Gibbons provided an update on 2013 student enrolment indicating that first-year enrolment is up by 22%; however, last September's lower than projected first-year enrolment mitigates this year's first-year increase and the college will focus on student retention over the semester. Final registration numbers will be confirmed with the audit of enrolment that takes place on November 1st. The President shared campus-specific enrolment increases noting in particular the increase at Moosonee Campus from 8 full-time students last year to 35 confirmations—28 students are registered to date. The college will issue press releases to highlight this year's enrolment increases and it was suggested that a quote be obtained from Chief Hardisty to be incorporated in the Moosonee release. Governor Molson suggested that the college assist with securing co-op placements with welding companies to help increase enrolment in the Welding program. Discussion followed on the skills mismatch and worker shortages in the region.

Chair Wyatt thanked the President for his report and the Board for their participation in the discussion.

Governor Micheal Miller reported that the NCACE met recently and will be meeting again in late September. Mr. Miller was pleased to share that the “Lightning Trail” youth retreat held at the Timmins Campus and offered in partnership with Hydro One and District School Board Ontario North East was a great success. Twenty-nine First Nation youth between the ages of 12-18 participated in the week-long retreat. The event will be offered again next year. Our new tipi is being put to great

use; landscaping work outside the tipi will soon be undertaken, along with the development of a garden for traditional medicines.

The President's Report is provided in the Board package. The President elaborated on his participation at the Minister's roundtable consultations held over the summer. (d) EXECUTIVE TEAM REPORTS AND STRATEGIC PLAN PROGRESS

Mr. Bob Mack, V.P., Community, Business Development and Employment Services reported on the development of the Moosonee Campus Plan and the establishment of a steering committee that has identified goals for the project. A facilitator will be hired to conduct community consultation sessions to ensure community involvement in the development of the campus plan. In addition to this plan, staff is working to increase the number postsecondary programs offered in Moosonee for next fall, in line with the 2013-2014 business plan. Base funding is in place to offer academic upgrading in Moosonee and we look forward to adding new upgrading programs delivered in coastal communities through Contact North starting in January.

Ms. Loran Charbonneau, V.P., Finance, Administration & Aboriginal Services was pleased to announce a redeveloped Aboriginal portal is now featured on our webpage. Aboriginal specific recruitment tools have been instituted and our on-campus Elders program, which continues to be a success and an important component of student retention, will be expanded thanks to additional funding. A "bring-your-own-device" strategy is beginning to be introduced and college-wide implementation will be complete for next September. In terms of risk management, a secure recovery room for data and server storage is almost completed (the Board offered some advice in terms of data back-up options). An Aboriginal Awareness week will be held between September 23 and 27 with a number of events planned throughout the week. Governor Collins was invited to report on his participation in a recent trip to coastal communities, as part of the college's initiative to increase awareness and embed Aboriginal content into curriculum – the trip was huge success and thoroughly enjoyed by all participants. Finally, Ms. Charbonneau reported that all campuses now have tipis.

Mr. Peter MacLean, V.P. Academic & Student Success spoke about the excellent work being done in the area of signature programs, including the development of new program brochures which were circulated for members' review.
